Employment Opportunity

**Position Title:**
Director of Risk Management

**Organization:**
HCA Healthcare - Riverside Community Hospital

**Location:**
Riverside, CA

**Job Description (including education/experience requirements, benefits, duties, etc.)**

The Director of Risk Management has been authorized by the Chief Executive Officer to provide the overall coordination of the Risk Management Program to protect the interest of the hospital and patients. The major goals of the Program is to provide a safe environment and quality patient care through the risk management principles of identifying, investigating, analyzing, and evaluating risks on a proactive basis and the selection of the most advantageous methods of correcting, reducing, or eliminating identifiable risks that may adversely affect our patients, visitors, and employees or the quality of care provided to patients in our facility, as well as reduce the cost of risk to the institution.

**Requirements:**
California RN License
Bachelor’s Degree from an accredited college or university, Master’s preferred.

**Experience:**
1. Possesses a basic understanding of the healthcare industry and risk management.
2. Demonstrates ability to communicate effectively both verbally and in writing.
3. Demonstrates leadership ability in relating to healthcare and management professionals.
4. Minimum progressive leadership/supervisory
